exocad bootcamp- level I

Beginner – Refine your skills in exocad

Get ready for our Level 1 Bootcamp, specifically designed to provide you with an in-depth understanding of the advanced yet user-friendly CAD software, exocad. This intensive training blends hands-on practice with expert insights, aiming to enhance your design efficiency.

The key learning objectives of this dynamic session include:

- Designing natural-looking Anatomic crowns.
- Crafting detailed Inlays, Onlays, and Veneers.
- Working with waxups for esthetic planning.
- Utilizing Exocad's Hotkeys for efficiency.
- Navigating the Implant Crowns and Custom Abutments

This Bootcamp aims to transform you into a skilled designer for both clinical and lab environments. By the end of the day, you'll emerge as a proficient Exocad user, ready to tackle real-world challenges with skill and creativity.

* Software and laptops are provided at the course
   7 CE Credits

WHERE

TruAbutment HQ
17666 Fitch, Irvine,CA 92614
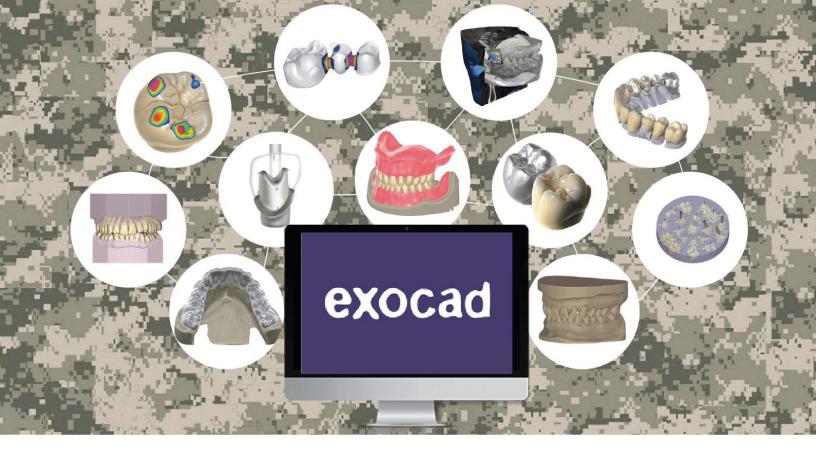

WHEN

December 8th, 2023
9:00am-5:00pm

TUITION

Level I: $975
Level I & II: $1500

Instructors:
Joshua &
Jonny Jakson

exocad bootcamp- level II
Advanced Implant Techniques in exocad

Immerse yourself in our Level 2 Bootcamp, specifically curated for proficient exocad users who are keen to master the exocad software for designing high-quality implant restorations. This course explores same-day workflows, covering everything from single unit to full arch procedures. Enhance the efficiency and quality of your dental practice with exocad.

The key learning objectives of this session include:

- Mastering exocad for efficient implant restorations.
- Understanding the fundamentals of implant location data.
- Grasping same-day full arch workflows.
- Implementing these innovative workflows in daily practice.

Upon finishing the course, you'll be proficient in exocad for implant restorations, understand implant location data, and skillfully apply same-day workflows to improve your practice.

*   Software and laptops are provided at the course.
    7 CE Credits

WHERE

TruAbutment HQ
17666 Fitch, Irvine,CA 92614

WHEN

December 9th, 2023
9:00am-5:00pm

TUITION

Level II: $975
Level I & II: $1500

Instructors:
Joshua &
Jonny Jakson

Agenda

9:00 - 10:45 AM: Deep Dive into exocad for Efficient Implant Restorations
- Key features and components of exocad relevant to implant restorations
- Practical session: Designing a single unit implant

10:45 - 11:00 AM: Break (15 mins)

11:00 - 12:30 PM: Understanding Implant Location Data
- The significance of implant location data and How to effectively use implant location data in exocad.
- Designing a multiple unit restoration using implant location data

12:30 - 1:30 PM: Lunch Break (1 hour)

1:30 - 3:00 PM: Fundimentals of Same-day Full Arch Workflows
- Explanation of same-day full arch workflows
- Case study: Implementing a full arch workflow in a same-day setting
- Practical session: Participants design a full arch restoration

3:00 - 3:15 PM: Break (15 mins)

3:15 - 4:45 PM: Implementing New Skills into Daily Practice
- Discussion on how to apply learned workflows in daily dental practice
- Overcoming potential challenges
- Practical session: Participants design an implant restoration case of their choice

4:45 - 5:00 PM: Wrap Up and CE Credits
- Review of key takeaways from the course
- Question and Answer session
- Distribution of CE credits

Dinner With Evolve Dentistry & Tru Abutment

Irvine, California 12/9/2023

17666 Fitch, Irvine, CA 92614

exocad BOOT CAMP

with Evolve Dentistry

Jonny "Exocad" Jakson and Joshua Jakson are recognized experts in CAD/CAM workflows and exocad. Jonny, directs evolve's team and doctors in performing same-day full arch surgeries, leveraging his deep understanding of exocad. Joshua, as America's premier remote exocad educator, has facilitated the digital transition of other 1000 clinics and labs. He prioritizes education and support, enabling users to optimize workflows and stay at the cutting edge of technology.

Together, Jonny and Joshua form a dynamic team, committed to advancing digital dentistry and making exocad more accessible and user-friendly.

Agenda

PACE
ACADEMY of GENERAL DENTISTRY
PROGRAM APPROVAL FOR CONTINUING EDUCATION

9:00 - 9:15 AM: Welcome and Introduction to exocad
- Overview of the course agenda
- Introduction to exocad software for newcomers

9:15 - 10:45 AM: Anatomic Crown Design
- Designing natural-looking Anatomic crowns in exocad

10:45 - 11:00 AM: Break (15 mins)

11:00 - 12:30 PM: Crafting Inlays, Onlays, and Veneers
- Crafting detailed Inlays, Onlays, and Veneers with exocad

12:30 - 1:30 PM: Lunch Break (1 hour)

1:30 - 3:00 PM: Designing temporarys from Waxups
- Working with waxups for aesthetic planning in exocad

3:00 - 3:15 PM: Break (15 mins)

3:15 - 4:00 PM: Utilizing Exocad's Hotkeys
- Using Exocad's Hotkeys for increased design efficiency

4:00 - 4:45 PM: Navigating the Implant Crowns and Custom Abutments
- Navigating the basics of Implant Crowns and Custom Abutments in exocad

4:45 - 5:00 PM: Wrap Up and CE Credits
- Recap of key course takeaways
- Q&A session
- Distribution of CE credits

exocad bootcamp- level I & II

- DESIGN CROWNS INLAYS, ONLAYS, AND VENEERS.
- UTILIZE WAXUPS FOR ESTHETIC PLANNING OF TEMPORARIES.
- NAVIGATE THE IMPLANT CROWNS AND CUSTOM ABUTMENTS
- MASTER EXOCAD FOR EFFICIENT IMPLANT RESTORATIONS.
- UNDERSTAND THE FUNDAMENTALS OF IMPLANT LOCATION DATA (PHOTOGRAMMETRY).
- GRASP SAME-DAY FULL ARCH WORKFLOWS WITH ACCURATE IMPLANT LOCATIONS.
- IMPLEMENT THESE INNOVATIVE WORKFLOWS IN DAILY PRACTICE.
